FAQs

WHAT IS THE DIFFERENCE BETWEEN CCR AND ORCA AND WHY MUST I REGISTER IN BOTH SYSTEMS?

Central Contractor Registration (CCR) is the primary vendor database for the federal government. Since October 1, 2003, it is federally mandated that any business wishing to do business with the federal government under a FAR-based (Federal Acquisition Regulation) contract must be registered in CCR before being awarded a contract. In addition, vendors must maintain their CCR records annually.

Online Representations and Certifications Application (ORCA) replaces most of the paper based Representations and Certifications (Reps and Certs) in Section K of solicitations with an Internet application. FAR 52.204-8 mandates the use of ORCA on or after January 1, 2005.

CCR and ORCA are complementary systems. ORCA reuses data pulled from CCR and pre-populates many of the required Representations and Certifications. Then, the vendor completes the remaining Reps and Certs with the understanding that with each solicitation they are certifying to current, accurate and complete information.

WHERE DO I REGISTER?

CCR: <https://www.bpn.gov/ccr/default.aspx>

ORCA: <http://www.bpn.gov> Click on "Online Reps and Certs Application" on the left side of the screen. If you do not have access to the Internet or feel you need extra Internet help please contact the Procurement Technical Assistance Center (PTAC) (http://www.aptac-us.org/new/Govt_Contracting/find.php) closest to you.

What information will I need to complete my ORCA registration?

Two items are needed prior to registration; (1) An active record in CCR, (2) An MPIN from that active CCR record. Visit www.ccr.gov to complete these tasks if you haven't already. More information about the questions asked in ORCA.

WHAT IS AN MPIN?
